ABSTRACT

This community service activity we gave the theme "Computer Based Accounting Training Using Accurate Software for Students of SMKN 6 and SMK Insan Cita Jakarta. The targets in this activity are 12th grade students. They are given explanations of the material about Introduction to Accounting and Practicum Accurate Software Programs. Participants also received modules on materials, snacks, lunch, certificates and transportation fees. The results of these activities are that they gain an understanding of what is accounting, what is the Accurate Software program, how to record transactions and compile financial reports using the Accurate Software program, so that participants can apply it when they immediately work at the company, or are more familiar with when entering college majoring in accounting. Evaluation can be done by monitoring them at work or at college after graduating from school.

Keywords: Accounting, Accurate Software Programs

FOREWORD

We offer our thanks to Allah SWT, Thank God, because of the grace and guidance, we can carry out community service activities in this time. This community service activity is made based on a proposal that we prepared earlier. Community service is one of the manifestations of the Higher Education Tri Dharma. Through community service activities, it is expected that Higher Education as a source of knowledge and innovation will transfer knowledge to the community in a form that is easily understood and practical so that it benefits the community. Community service activities are carried out in the form of training with the theme "Computer Based Accounting Training Using Accurate Software for Students of SMKN 6 and SMK Insan Cita Jakarta". This activity is an activity of Community Service in the International Cooperation with the Graduate School of Business Universiti Sains of Malaysia (GSB-USM) as a partner, which was attended by Prof. when Dr. Salmi Mohd Isa. Accurate Software Program is software that is used to process transactions into financial statements that begin with recording accounting transactions. Accurate software is widely used by companies to do accounting processing. In addition Accurate Software program is also widely used by Universities for accounting practicum for students.

We chose the target of this activity is students of class XII SMK 6 and SMK Insan Cita Jakarta because the location of these schools is very close to the UMB campus (only 6 KM away). In addition, many students graduating from SMK 6 and SMK Insan Cita Jakarta undertook practical work at the UMB campus, also continued their studies at UMB, including the teachers who also continued at the UMB Accounting Masters program, and many also immediately worked when graduating. We hope that this activity will be useful for students of SMKN 6 and SMK Insan Cita Jakarta in particular. We also want to say thank you very much to those who have helped and involved in this activity, especially our partners, the Graduate School of Business Universiti Sains of Malaysia (GSB-USM), which in this case was represented by Prof. Dr. Salmi Mohd Isa. Also a team of partners, Yuvaraj A / L Ganesan and Ooi Say Keat, Ph.D. This activity is also expected to provide benefits for Universitas Mercu Buana marketing. With community service activities that synergize with marketing, it is expected to be able to give a positive impression to the entire UMB academic community and the surrounding community.

Jakarta, 15 February 2020

Dr. Hari Setiyawati, SE., Ak., M.Si., CA

CHAPTER I

INTRODUCTION

1.1 Situation Analysis

SMKN 6 Jakarta located in South Jakarta and SMK Insan Cita located in Kalideres Karta Barat. The location of the school is not far from the UMB campus and there are quite a lot of Grade XII students in these schools doing internships or practices at Mercu Buana University, with placements in various units. There are also a number of teachers who continue their studies at the Master of Accounting Program. Students who graduate from these schools also have the potential to continue their studies at UMB. There are quite a lot of UMB accounting study students from these schools, especially those whose accounting majors go to S1 Accounting Studies Program. Many of the graduates of these schools immediately went to work without continuing college. The Community Service Activities that we hold aim to prepare those who are directly working and who will continue their studies. Graduates who directly work certainly must be prepared so that they can also carry out tasks related to accounting, both accounting manually and by using computer software.

One of the computer accounting software that is currently quite widely used in practice in companies and used in practicums in many universities is the Accurate program, where the program is also used at Mercu Buana University as one of the programs for accounting computer practicum for students and in preparing reports finance by the accounting department at the Finance Bureau. Students of SMKN 6 and SMK Insan Cita Jakarta are introduced to the program to prepare if they continue their studies at Mercu Buana University, or apply when they are working. Some of the problems that are often faced by students when internships are they cannot be placed in sections related to accounting records (Accounting at UMB uses Accurate Software), cannot help laboratory instructors in accounting laboratories, it is also rather difficult to help tasks related to computers (IT). Based on the problems that have been described above, we intend to hold community service activities in the form of "Computer Based Accounting Training Using Accurate Software for Students of SMKN 6 & SMK Insan Cita Jakarta".

1.2 Partner's Problem

1. How is the application of the computer-based accounting cycle with using Accurate software?
2. How is the compilation of financial statements based on computer with using Accurate software?

CHAPTER II

SOLUTIONS AND OUTCOME TARGETS

Based on the problems that have been described in the situation analysis above, the solution that will be carried out is by giving supplies to students of SMKN 6 & SMK Insan Cita Jakarta so that they can better prepare themselves while working or continuing to study, especially in accounting study programs. The debriefing provided was in the form of computer-based accounting training using Accurate software.

The expected output target of this activity is students of SMKN 6 & SMK Insan Cita Jakarta can understand and be skilled and can apply transaction recording and preparation of financial reports using Accurate software when they work. For more details about the target of the output outcomes can be seen in the following table:

Table 1. Solution and Outcome Target

No	Type of Output	Outcomes Indicator
1	Scientific publication in the journal / proceedings1)	None
2	Publication on mass media (print / electronic)2	None
3	Increased turnover in partners engaged in the economic sector 3)	None
4	Improving community understanding and skills 3)	None
5	Improving community understanding and skills 3)	Existing
6	Increased peace / public health (general public partners) 3)	None
7	Services, models, social engineering, systems, products / goods 4)	None
8	Intellectual property rights (patents, simple patents, copyrights, trademarks 6)	None
9	Textbook 6)	None

CHAPTER III

IMPLEMENTATION METHOD

3.1. Goals Of Targets

The target in this activity are students of Class III (XII) SMK 6 & SMK Insan Cita Jakarta, which are schools located not far from the Mercu Buana University campus.

The implementation method used in this activity is in the form of training. The students were invited to the Mercu Buana University campus, located in the accounting computer laboratory room in room A 303/304.

The material to be provided is:

1. Introduction to introduction to accounting.
2. Accurate software accounting practicum by giving several cases.
3. Evaluation

3.2. Purpose Of Activities

This activity aims to provide training on the application of the cycle of accounting and financial reporting based on computers using Accurate software.

3.3. Benefits Of Activities

This training is useful so that students of SMKN 6 & SMK Insan Cita Jakarta are familiar with transaction processing to financial statements using a computer program called Accurate software, and an initial introduction to prepare for higher education (for those who will continue their studies). For those who directly work can directly apply it in the company because Accurate software is widely applied by companies in processing accounting transactions into financial statements.

3.4. Framework For Troubleshooting

Accounting is the recording, identification, measurement, reporting and communication of financial information about economic entities to interested users. In the last 30 years economic entities have changed significantly both in terms of size and complexity and the users concerned have also increased substantially both in terms of quantity and diversity. That is, the responsibility that is borne by the accounting profession today is greater than before.

Along with that also means that accounting information processing is demanded to be faster, more accurate and timely. This condition causes the emergence of computer based accounting programs.

Almost all large and medium-sized companies use computer programs in processing the accounting cycle to become financial statements. Accounting processing programs or so-called accounting software has been sold in the market. One type of software is Accurate software.

Accurate has been widely used by universities to facilitate students in learning accounting practices. Accurate is also widely used by companies in processing transactions into financial statements, one of which is Mercu Buana University. UMB uses the Accurate software program in transaction processing and for practicum students majoring in accounting.

Accurate contains various kinds of expertise in accounting, including Introduction to Accounting, Auditing, Accounting Information Systems. However, the most basic science is Introduction to Accounting, which includes a complete transaction processing system from journals to financial statements.

3.5. Evaluation Design

Training participants will be given an evaluation in the form of a special test at the end of the session in the form of materials that have been given at the beginning of the session, namely computer accounting practicum. Participants are given cases contained in the Accurate program, then participants are asked to work directly on the computer.

CHAPTER IV

RESULTS AND DISCUSSIONS

This community service activity was held on February 7, 2020 at the Mercu Buana University Campus, which was attended by 30 students of SMKN 6 & SMK Insan Cita Jakarta and two teachers, located in the Computer Laboratory Room of the Faculty of Economics and Business. Community service activities produce increased knowledge about the accounting cycle and accounting transaction data processing to become financial statements using the Accurate Software program. Insyaa Allah participants can apply it if in the near future directly work or continue studying in the accounting department. The training participants were evaluated in the last session by testing the material that was submitted. The participants were very enthusiastic in participating in this training, and gave positive responses.

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1. Conclusions

The participants were very enthusiastic about this activity and they really hope that this activity will continue. Participants are expected to benefit from the Community Service Program. These benefits include knowledge and understanding of the accounting cycle and processing transaction data into financial statements. Where this knowledge is very useful for their stock when after graduating both to continue to the Higher Education level and to directly work. This training is very useful for students of SMKN 6 & SMK Insan Cita Jakarta in terms of preparing themselves to continue studying in the Accounting department and who will immediately work in the company, considering the Accurate program is widely applied by companies in processing financial transactions.

5.2. Suggestions

Participants suggested that the next Community Service activity on Accurate Software Program training invited was accounting teachers, so that it could be applied in high school / vocational school level.

MEMORANDUM OF UNDERSTANDING

BETWEEN

UNIVERSITI SAINS MALAYSIA (USM)

AND

UNIVERSITAS MERCU BUANA (UMB)

THIS MEMORANDUM OF UNDERSTANDING (hereinafter referred to as "**MoU**") is made this ____ day of _____, 2011.

BETWEEN

UNIVERSITI SAINS MALAYSIA, a public institution of higher learning incorporated under the Universities and University Colleges Act 1971 and for the purpose of this MoU is represented by School of Management with its main campus at 11800 USM, Pulau Pinang (hereinafter referred to as "**USM**"), of the one part;

AND

UNIVERSITAS MERCU BUANA, a private institution of higher education incorporate under Coordinator of Private Universities Territory III, Jakarta Act 1985 and the purpose of this MoU is represented by Faculty of Economic with its main campus at Jl. Raya Meruya Selatan, Jakarta (hereinafter referred to as "**UMB**"), of the other part.

USM and UMB, shall hereinafter referred to collectively as "Parties" and individually as a "Party")

WHEREAS:-

- A. UMB is Indonesia's private university which education and teaching facilities refer to state own universities standard, its staff members have long experience in teaching the related fields and have broad knowledge of sciences, and one of the mission is to create graduates with the entrepreneur skill and fit into available job market in Indonesia.
- B. USM is Malaysia's premier public university with research and teaching facilities, experience, and a multi-disciplinary team of experts from among its staff members to undertake the creation, development, dissemination and application of knowledge that can contribute towards achieving the Malaysian Government's goal of nation building.

- C. Following discussions between USM and UMB, the Parties wish to establish collaboration and explore opportunities to develop, support and enrich the development of research in the fields that will be beneficial to both Parties.
- D. USM and UMB recognized that joint collaboration and effort on exploring opportunities and establishing a cooperative relationship would benefit both Parties.
- E. This MoU sets out below the general framework and intentions of both Parties for collaboration for facilitation of further definitive agreement(s).
- F. In achieving the objectives of this MoU, the Parties shall work on the basis of reciprocity in areas of mutual interest within the parameters of their laws, constitution, regulations and/or policies.

NOW IT IS HEREBY UNDERSTOOD as follows:

1. Purpose of this MoU

- 1.1 USM and UMB will endeavour to assist and support each other in the collaboration for the projects that mutually benefit both Parties, among others:-
 - i) general academic collaboration including the exchange of educational resource materials and publications that are of mutual interest
 - ii) development and implementation of students (undergraduates/postgraduates) and/or staff (Academic/Administration/Sabbatical) exchange programs
 - iii) identification of special short-term academic programs (e.g. seminars, workshops, and trainings), projects and research collaborations of mutual benefit to both institutions
 - iv) any other projects that shall be mutually identified and agreed by both Parties at a later stage.

- 1.2 This MoU shall form the basis of consensus for the Parties to examine the feasibility of the collaboration until such time when any other manner of agreement is entered into by the Parties upon terms and conditions to be mutually agreed upon.

2. Confidentiality

- 2.1 (a) Neither Party shall at any time disclose to any other third party, any Confidential Information of the Parties, acquired pursuant to this MoU without the written consent of the other Party.
- (b) For the purpose of this MoU, "Confidential Information" means any and all technical and non-technical information including patent, copyright, trade secret, know-how and proprietary information, techniques, sketches, drawings, diagrams, methods, processes, apparatus, equipment, algorithms, software programs, software source documents, and formulae related to a technology or invention, and includes, without limitation, its respective information concerning research, experimental work, development, design details and specifications, engineering, financial information, procurement requirements, purchasing manufacturing, customer list, business forecasts, sales and merchandising and marketing plans and information designated in writing to be confidential or by its nature intended to be for the sole knowledge of the receiving party or if orally given in the circumstances of confidence or confirmed promptly in writing as having been disclosed as confidential or proprietary for the purpose of this MoU; that is conveyed by the disclosing party to the receiving party, in written, oral, digital, magnetic, photographic and/or whatsoever forms;
- 2.2 No Party shall publish or otherwise make public the contents of this MoU and any Confidential Information made available to each other without the prior written consent of the other Party.

3. Non-Binding Nature of the MoU

Notwithstanding the statements and obligations herein, this MoU shall not create a legal relationship between the Parties and the Parties shall not be legally bound until and unless a definitive agreement has been negotiated and duly executed by the authorized representatives of USM and UMB.

4. Validity and Renewal of the MoU

4.1 This MoU is valid and shall remain in effect for **FIVE (5)** years from the date of this MoU. Either Party may terminate this MoU by giving one (1) month's written notice to the other Party. Notwithstanding the expiry or the earlier termination of this MoU, the obligations of the Parties in clause 2 herein shall survive and remain binding on the Parties for a period of five (5) years from the expiry or the earlier termination of this MoU (as the case may be) or, the expiry or the earlier termination of the renewed period (as the case may be) as provided in clause 4.2 herein.

4.2 This MoU may be renewed upon the mutual agreement of both Parties.

5. Notices

Any notice or communication between the Parties shall be delivered to the address, sent to the facsimile number or emailed to the following:

USM:

Address: School of Management
Universiti Sains Malaysia
11800 USM
Pulau Pinang, Malaysia

Telephone No: 604 - 6533370

Facsimile No: 604 - 6577448

Contact person: Associate Professor Dato' Dr. Ishak Ismail

Email address: iishak@usm.my

UMB:

Address: Jl. Raya Meruya Selatan No. 1
Kembangan,
Jakarta Barat 11650

Facsimile No: 021-5840813

Telephone No: 021-5840815, 021-5840816

Contact person: Dr. Enny Ariyanto, SE, MSi.

Email address: enny.ariyanto@mercubuana.ac.id

Contact person: Arief Bowo Prayoga, SE, MM.

Email address: ariefbowo@mercubuana.ac.id

Contact person: Nurul Hidayah, SE, Ak, MSi

Email address: nurul.hidayah@mercubuana.ac.id

6. Variation

The terms stipulated in this MoU shall not be amended, altered, changed or otherwise modified without the mutual consent of the Parties and such amendments, alterations, changes and modifications shall be made in writing and signed by the Parties hereto.

7. Governing law

This MoU shall be interpreted in accordance with the laws of Malaysia and the Parties hereby submit to the non-exclusive jurisdiction of the courts of Malaysia.

8. Dispute Resolution

The Parties agree that all disputes arising pursuant to this MoU shall be resolved by way of negotiations and discussions and with a view to an amicable settlement and mutual benefit of both Parties.

9. Execution of the MoU

The signature of the signatory transmitted by facsimile or other electronic means shall be deemed to be its original signature for the purposes of this MoU. The exchange of copies for this MoU and of the signature page thereto by facsimile or other electronic means of transmission shall constitute effective execution and delivery of this MoU and may be used in lieu of the original MoU for all purposes.

10. Assignment

Unless otherwise agreed in writing, both Parties shall not transfer or assign all or any of their rights, obligations, interests or benefits hereunder to any third party.

11. Name and Logo

Neither Party shall use, nor permit any person or entity to use the name or logo (or any variation thereof) of the other Party without first obtaining the written consent of the other Party.

12. Mutual Cooperation and Relationship

The Parties realize that it is not feasible to adequately foresee and address every issue involving the collaboration of the Parties herein. Hence the Parties shall use their best endeavours to realize their expertise in carrying out the steps and measures necessary for furthering their mutual interest under this MoU in accordance with the spirit of close cooperation and mutual assistance.

13. Cost

The Parties agree to bear their own legal and other cost incurred in relation to the preparation, negotiation and execution of this MoU and all documents contemplated by it (except where this MoU or those other documents expressly provides to the contrary).

(THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK)

IN WITNESS WHEREOF USM and UMB hereunto have executed this Memorandum of Understanding on the year and date first above written.

UMB/JCSF/ _____		
Impact/Benefit/Contribution of Project to Science/Society/Other Parties <i>(Please state the expected deliverables of the Project include: IPR, prototype, publications etc.)</i>	This training is useful so that students of SMKN 6 & SMK Insan Cita Jakarta are familiar with transaction processing to financial statements using a computer program called Accurate software, and an initial introduction to prepare for higher education (for those who will continue their studies). For those who directly work can directly apply it in the company because Accurate software is widely applied by companies in processing accounting transactions into financial statements.
