

## **ABSTRACT**

*This community service activity we gave the theme "Good Bookkeeping with Using Smart Phone for Small Business In Industry 4.0". The targets in this activity are Small Business Practitioner. They are given explanations of the material about Introduction to Accounting and Practicum SIAPIK Android Application Programs. Participants also received modules on materials, snacks, lunch, certificates and transportation fees. The results of these activities are that they gain an understanding of what is accounting, what is the SIAPIK Android Application program, how to record transactions and compile financial reports using the SIAPIK program, so that participants can apply it when they need financing from the investor or financial Institution immediately. The evaluation is carried out when the SMEs implement it in their business activities.*

**Keywords:** *Accounting, SIAPIK Android Application Programs, smartphone*
