

ABSTRACT

This community service aims to improve the ability of HIGH school students in South Jakarta area, is a generation-Z that is in daily life using high social media, but it does not yet have the maximum ability of intelligence and heart policy in interacting through social media. The dedication activities will be conducted to high school students in West Jakarta area in an interactive form through persuasive methods of communication. Students will be trained and persuaded to have awareness and intelligence and wisely interact through social media so that finally has an attitude anti post truth. The training will be conducted within one month with 2 meetings.

The frequency of 2 times the meeting is expected to cultivate an attitude to be an anti post truth content creator so that students have the ability to use social media positively and can create social media content creatively.

Training activities will be conducted for one (1) month with two meetings, the duration of each meeting is approximately 3-4 hours so that students have a level of understanding and skill in the practice. The execution time of the activities is designed on Saturdays with the intention of not disturbing the day of the schedule of KBM (Kurikulum Belajar Mengajar) in their schools in West Jakarta area.

Key word: Media Literacy, Content Creator, *Post Truth*, *Social Media*.
