

ABSTRACT

Socialization and Counseling with the theme of Stop Bullying is aimed to know the importance of what parts of our body that cannot be touched by, the need to be vigilant if invited to quiet places either by known or unknown people, and how to act if such an event took place against the child. Then, it is necessary to know that bullying is sometimes gone unrealized because it is considered as normal or even a funny thing, but it is necessary to be told to the child that calling names in the form of ridicule or hitting others is an unjustified action. Socialization and Counseling with the theme of Stop Bullying was carried out in the Sungai Bambu Child Friendly Integrated Public Space (RPTRA) Tanjung Priok, North Jakarta.
